
BPMS PROJECT ENGINEER

Our Company is built on employee mutual commitment and respect, enthusiasm and progress.

NeXsys Group Incorporated specializes in the design, implementation, research and development of the next generation Business Process Management System (BPMS). BPMS defines and diagrammatically represents specific corporate processes, features, and/or characteristics of a corporation's business and quality management systems. BPMS, as a deployed system solution, integrates with the corporation's data-structure and applicable International Quality Management System standard.

Through the implementation of NeXsys' product life-cycle management methodologies, processes, tools, reports and platform. BPMS provides, in real-time, strategic reports on the corporations' performance against identified corporate fiscal year goals and objectives by means of accessing those specific process related KPIs, thus identifying to executives the efficient allocation of resources. As part of our continuing growth in this high technology market, NeXsys is recruiting for the following opening:

Scope:

Implement compliant ISO related Quality Management System & Corporate Business Objectives (KPI). BPMS deployed in various market place verticals i.e., Automotive/ Mil-Aerospace/ Food/ Medical/ General Manufacturing/ Public Sector (TS16949/ AS9100:2009 /ISO13485:2003/ ISO9001:2008)

Project Engineer:

This position is a key member of a cross functional team that drives the implementation of Business Quality Management System compliance within a client's organization and champions the move from reactive to proactive initiatives in a fast paced project environment.

The successful candidate will have a Bachelors Degree and a minimum of eight (8) years of experience as a Quality / Project Manager. He or she must also have demonstrated the practical application of the following areas:

1. Project Manager Requirements/Experience:
 - 5-10 years related experience (Quality/Project Manager)
 - Related experience with Quality Management System(s) (i.e., ISO9000:2008/AS9100:2009/TS16949/ISO13485)
 - Certified Quality Engineer/Manager, CQE/M Distinction
 - Six Sigma Senior Black Belt (Certified)
 - Project Management Professional, PMP Distinction from PMI
 - Kaizen/Lean Manufacturing experience
 - Generate applicable Quality Analysis templates, procedures, instructions.

2. Soft Skills Experience:
 - iGrafix or related Process Mapping Software
 - Visio
 - Crystal Reports
 - MS Project
 - Various MS Office tools

Interpersonal skills:

- Self-motivated, team player, action and results oriented
- Well organized, good communication and reporting skills
- Ability to successfully work under tight project deadlines

Organizational "Fit" Considerations:

NeXsys Group Inc. is seeking a team player, who enjoys technical challenges within a fast-paced environment. Applies sound judgment in successful task planning and execution, meets deadlines, and communicates the highest standards of professionalism in his/her appearance and work habits.
